PROJECTS AND WORK EXPERIENCE

Regulatory Compliance Verification - Thesis Project - Research Developer ***Aug 2025 – March 2026***

https://rcv-steel.vercel.app

- Co-developed a full-stack Web3 RegTech platform using React, Flutter, Node.js, TypeScript, PostgreSQL, and Redis to automate Philippine animal feed compliance verification, improving processing efficiency by 70%.
- Designed and implemented a CI/CD pipeline using **GitHub Actions** with automatic production builds and deployments on push to main (**Vercel, Railway, Heroku, Firebase**).
- Delivered and formally handed over the system to the Bureau of Animal Industry for evaluation.

Schools Division Office of Caloocan City – Inventory Management System (OJT) **May 2025 – July 2025**

- Full-Stack Development: Developed a centralized platform using React and Node.js to track and manage over 1,000 digital assets across 80+ public schools
- Database Management: Optimized a PostgreSQL database, resulting in a 40% increase in data retrieval speed for the division stakeholders.
- Operational Efficiency: Digitalized manual inventory workflows by implementing automated reporting and audit logs for enhanced accountability.

Circuit Cube - Software Engineering **July 2024 – April 2025**

https://circuitcube.netlify.app/

- Built a 3D breadboarding platform (LMS) for logic circuit education using React and Vite.
- Programmed complex algorithms to simulate logic gate behaviors, providing a 1:1 digital twin of physical hardware.
- Optimized performance to ensure smooth 3D rendering in-browser.

Pandayo Coffee – Personal Project – Full-Stack Developer ***Sept 2026 – Present***

https://pandayo-coffee.vercel.app/

- Built a full-stack POS and inventory system for a coffee shop using Next.js, TypeScript, Tailwind CSS, and Supabase.
- Implemented role-based access control (Owner, Cashier, Staff) with Supabase Auth to secure POS and inventory features.
- Developed an admin dashboard for managing inventory and monitoring sales.

EDUCATION

University of Caloocan City
Caloocan, NCR
BS, Computer Science **Batch 2022-2026**

- Thesis of the Year
- Best Technical Documentation – 5th Research Conference
- Best Research Developer

CERTIFICATIONS

Certifications: Postman (API Fundamentals), Sololearn (HTML, CSS, & JavaScript), Simplilearn (Generative AI, Cybersecurity & SQL)

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React, Next.js, Node.js, Flutter
Tools & Platforms: PostgreSQL, GraphQL, Tailwind CSS, Git, MySQL, GitHub, Bash, Firebase, Java, Redis, Jira, GitHub Actions, Supabase, REST API, Docker
